

July 3, 2011

Dear Sir/Madam,

Over a period of 6 months in 2010 and 2011, SNV contracted Aidan Dockery to document our work in the field across Asia.

This was a challenging assignment, requiring extensive travel to project sites in Cambodia, Laos, Vietnam, Nepal and Bhutan to capture images of SNV's work in Agriculture, Forestry, Renewable Energy and Water, Sanitation & Hygiene.

Aidan was selected from a large pool of highly-qualified applicants for the assignment on the basis of both his excellent portfolio of previous work in the development sector, his strong cross-cultural experience, and his clear understanding of our need to capture the personal stories behind our work around the region.

Throughout the assignment, Aidan joined SNV staff in often challenging circumstances, visiting a range of remote project sites. In addition to his clear professional skills, he demonstrated flexibility and adaptability, as well as the ability to successfully engage stakeholders from a range of cultural and socio-economic backgrounds.

Outgoing and engaging, but never intrusive in his approach, Aidan was able to successfully capture both our professional process and give an insight into the personal stories and circumstances of the communities and people with whom we work.

At the conclusion of the assignment he delivered a portfolio of more than 1,200 images which SNV is now using globally to profile our work.

We are extremely happy with Aidan's work for SNV, and would have no hesitation in recommending him for any similar assignment.

Please feel free to contact me directly should you wish to discuss Aidan's work for SNV further.

Best regards,

Nick Greenfield
